

The unprecedented growth of business schools in India in the past two decades has led to a large scale growth of management teachers, which has in turn created a quality challenge for management education in the country. Though India has a large number of business schools and consequently a large number of faculty members teaching in these business schools, there is, however, a need for well-trained faculty who will in turn help produce quality management graduates for facing the challenges and effective decision making in the real world. FORE School of Management has taken this initiative of improving the teaching skills of faculty in business schools in the country.

Through its carefully designed Faculty Development Programmes (FDPs), FORE endeavours to contribute to enhance the teaching and research skills of business school teachers to obtain in-depth knowledge on the subjects they teach to their students. The emphasis is on using various pedagogical tools like lectures, group exercises, simulations, management games, and presentations, multimedia tools, advanced statistical packages apart from exposure to course design, curriculum planning and academic administration.

I invite you to join the movement of FORE School of Management of upgrading the teaching and training skills of teaching fraternity in the business schools in India.

- Organizations concerned must obtain confirmation of acceptance of nomination from FORE before sending participants to programme venue.
- The above programmes can also be customized according to the requirement of an organization.

FORE School of Management

FORE School of Management (FORE) has been established by the Foundation for Organisational Research and Education, a non-profit organisation, with a mission "To achieve and sustain Leadership in Management Education, Research, Consultancy and Development". FORE conducts following long-duration educational programmes:

- Two-year full-time Post-Graduate Diploma in Management (PGDM) approved and accredited by the All India Council for Technical Education (AICTE), Government of India and recognized as equivalent to MBA Degree of an Indian University by the Association of Indian Universities (AIU).
- Two-year full-time Post-Graduate Diploma in Management (International Business Management) approved by the All India Council for Technical Education (AICTE), Government of India.
- Three-year part-time Post-Graduate Diploma in Management (PGDM) approved by the All India Council for Technical Education (AICTE), Government of India.

CRISIL – a leading Ratings, Research, Risk and Policy Advisory Company in India – has recently awarded A*** grading (the highest rating level) for the Delhi-NCR region to both our 2-year PGDM and PGDM (International Business) programs at FORE.

Eminent academicians with many years of experience and experts from industry, recognized nationally and internationally, constitute faculty at FORE. FORE has in-house training facilitators in the field of Communication, HR & OB, Finance, Operations, Marketing, IT, International Business and Strategic Decision Making.

With a sharp focus on Management Education, Management Development Programs, Faculty Development Programs, Consulting and Research, FORE stands amongst the Top Business Schools in the country.

Faculty Development Programmes

FORE School of Management (FORE), which is consistently rated among best business schools in the country, has been a fore-runner in design and conduct of Faculty Development Programmes in terms of number, variety, reach and relevance of the programmes to business schools in the country. FORE conducts FDPs with a view to improving the teaching skills of faculty members and grooming them for leadership roles in order to provide solutions for achieving better standards of management education. The focus is on developing professional skills of academicians with a view to improving practice in teaching, research and institutional service and also to manage change by enhancing individual strengths and abilities as well as institutional capacities, for better teaching performance and better outcomes for students by using new teaching methods, evaluation techniques and enhanced processes for analyzing, planning and implementing curricula. These FDPs are designed with an appropriate blend of conceptual knowledge and experiential learning to enhance teaching skills of participants in the contemporary business context to boost the performance and privity of the academic institutions.
