

FORE is committed to the advancement of Management Education, Research, Training and Consultancy. Incorporated in 1981, as a non-profit institution, FORE has been working with industry and academia for developing new domains of managerial thought and education and contributing to building leaders in today's global business environment.

Σ (Operations, Finance)
Samadhan
.....A Complete Solution

Samadhan-"The complete solution" aims to bring professionals from various strategic positions and diverse backgrounds to discuss the burning issues in the field of Finance, Operations and IT. The conclave envisages to give corporates a feel of the young and bright talent ready to join the corporate world and give students a better understanding of the issues and the outlook of corporates towards them.

“A ship is safe in harbor, but that's not what ships are for.”

William Shedd

The Great saga of a problem ridden IT company last gave us an opportunity to think about the risks that exist in running a business. But at the same time It has shown that the business is bigger than individuals and has to go on. It also brought out the fact that India is finally ready to take brave decisions and rather than letting a company go down, we can get our acts together and move on with life.

Financial
Leadership and Governance

“They do not have the expertise gained from the failures it took to produce the original”

Kiichiro Toyoda

Modern world of operations is all about standardization of processes but at the same time it is about making your own standards that fit with the wisdom that your organization has gained from being there for years. Its about fitting into the processes but at the same time fitting the processes for your organization. Over the years there has been a strong felt need by the academics and academically oriented practitioners around the world to support, develop and diffuse knowledge in the areas of manufacturing and service operations for the betterment of society. It is being increasingly realized that efficient operations is the future of any organization.
