

***FORE International Management Conference
(FIMC)-2024***

AI, Business Models, and the Future of work

28th-30th November, 2024

“FIMC 24 aims to serve as a beacon of knowledge, innovation and strategic insight”

About FORE:

- Foundation for Organizational Research and Education (FORE) is committed to the advancement of Management Education, Research, Training and Consultancy. Incorporated in 1981, as a non-profit institution, FORE has been working with industry and academia for developing new domains of managerial thought and education, and contributing to building leaders in today's global business environment.
- FSM provides contextual learning and helps in the development of students as thinking professionals, who have the ability to meet the future challenges of tomorrow's corporate leaders.
- FORE School of Management has been designing, developing and conducting innovative Executive Education (EE)/ Management Development Programs (MDPs) for working executives in India for over three decades.
- This annual international conference on the theme of "***AI, Business Models, and the Future of Work***" to deliberate on the profound transformations reshaping the landscapes of technology, business, and employment in the 21st century.

Innovative Tracks, Exploratory Sessions

- Dive into Innovations, Technology and AI driven experience for a ever evolving facets of the AI-business-work nexus.
- Navigate the regulatory frameworks of AI, engage with success stories of AI integration in business models, learn about innovations in AI technology, and discuss the skills, education, and policy frameworks needed to navigate the future of work.

Collaborate, Innovate, Attain

- Annual FIMC 2024, foster innovation through engaging discussions, workshops, and inspiration from leading experts. Together, we aim to discuss the issues of data privacy, bias in AI algorithms, and the environmental impact of tech development.

Join us at FORE International Management Conference 2024

Where innovation, technology knows no bounds to explore how AI-driven automation transforms sectors, industries, the emergence of new job categories in the gig economy, and ethical AI across business practices.
